

# Guidebook for Ljubljana

The capital city of Slovenia is a very interesting city.

If you like animals, you'll go to the zoo. Ljubljana's Zoo has got about 500 different animals. Roads in zoo are 6,5 km long so you can take a really nice walk there.

Do you like walks? Then you must go Park Tivoli. This is the biggest park in Ljubljana. I like it because it is very tidy.

Shopping centre BTC City Ljubljana has got about 450 shops. You can find everything there.

Ljubljana is also famous for Dragon bridge. Under it, the river Ljubljanica flows. They built the bridge 100 years ago.

The next famous sight in Ljubljana is Prešeren square. There is a France Prešeren's monument. Prešeren was one of the best authors in Slovenia, 200 years ago. He wrote Slovenian anthem.

The river Ljubljanica flows through the centre of the city. There are three bridges called "Tromostovje". In the centre there are a lot of tourists. I recommend a walk in this part of Ljubljana, because it is closed for traffic.

One of the most popular destinations is Ljubljana's castle. It is about 500 years old. A lot of people get married there.
